Maintenance & Updating Service

AverDesign offer an ongoing maintenance and update service that is paid monthly by standing order payments. This invaluable service starts for as little as £40 per month. Certain websites require more upkeep than others and therefore the price can vary.

This service provides any updates and changes to the website that are required to keep it healthy and operating at its full potential.

Maintenance:

- Check that all of the website pages are loading without errors
- Run a backup and make sure a current version of the site is stored
- Make updates to website software and plugins
- Check that all of the forms are running properly
- Remove any spam comments from pages and posts
- Scan all pages to see if there are any broken links

The monthly cost also covers updates that are required by the customer.

Updates:

- Optimising & resizing photos for website compatibility and then uploading
- Amending / changing any written text
- Posting created events to an existing event page
- Posting created blogs to an existing blog page
- Changes to any links on the website

Terms and Conditions

Cancellation of this agreement can be made by giving written notice of one month – this can be via email.

This service does not include the cost of annual domain name, SSL certificates and hosting renewal. We are however available to provide assistance for the customer when purchasing these items.

New pages or design to current pages is not included and would require a separate estimate for the work involved.

We will carry out any requested editing as soon as we possibly can, normally within 48 working hours.

Monthly service payable in advance via a standing order on the 1st day of the month.
